

VIBRATING SCREED HURACAN

The Huracan from Enar is the perfect choice, in terms of quality and performance, for the most demanding jobs. The profiles used on the Huracan are resistant and glide comfortably across concrete due to its floatability.

DESIGNED & MANUFACTURED IN EUROPE FOR QUALITY AND EFFICIENCY
The Huracan is equipped with a powerful and reliable Honda GX35 petrol engine. The closed profile has been designed to work from 2m to 5m providing exceedingly high quality.

+ Ergonomic

Fold away handles.

The Huracan has fold away handles for easy storage and transportation and they are isolated from vibration making the use of the product more comfortable for the user.

+ Durability

Elevated Motor for protection.

The motor attached to Huracan is elevated to avoid any water or concrete splashed damaging it, reducing the risk of damage and also keeping the motor clean.

+ Performance

Two eccentrics instead of one.

Two eccentrics joined together allow control of the eccentric force. 3 possible adaptations of the eccentrics allow the user to work to his own needs.

+ Comfortable to Manage

Reliably simple.

Along with the fold away handles, the profile and the chassis are easily separated and put back together for easy, manageable set up and transportation. It takes up less storage space than a normal screed and is simple to set up.

TECHNICAL DATA

PETROL SCREEDS

MODEL	ENGINE	POWER (CV)	FUEL	FUEL TANK (L)	FREQUENCY (vib/min)	CENTRIFUGAL FORCE (N)	WEIGHT (Kg)
HURACAN H	HONDA GX35 4t/st	1.6	Gasoline	0.7	Up to 9,500	2,000	14.5

PROFILES

LENGTH (m)	WEIGHT (Kg)
2	8.2
3	12.6
4	16.8
5	21

- › High resistance, aluminium profiles.
- › Rounded ends to the profiles.
- › Strict flatness control while in use.
- › Symmetrical profile allows for a longer life span, as you can use both sides.
- › Profiles available from 2m to 5m.
